NMMA Oil Certification Program for TC-W3®

Dear M. Lafarge:

We have received your request and license agreement for the two-stroke-cycle outboard engine lubricant coded 2 Temps Marine TC-W3 ("certified lubricant") which has passed the NMMA Certification Tests for TC-W3®.

The certified lubricant has been assigned the following certified number:

TC-W3® RL- 92013E

For quality control reasons the certified lubricant may not be marketed as NMMA certified unless such lubricant bears the assigned certification number plus the year date.

The enclosed trademark license is in effect until December 31, 2005. In order to continue use of the NMMA certification marks or statements on or in connection with the certified lubricant, a new license agreement and payment of the annual license fee must be made before the end of the calendar year.

Any rebranding or reblending of the certified lubricant will require a separate trademark license agreement with NMMA for the use of NMMA's certification marks on or in connection with such rebranded or reblended lubricant.

Please advise if you have any question with respect to your assigned certification number or NMMA's Oil Certification Program.

Very truly yours,
National Marine Manufacturers Association
